Turn your company party, group outing, bachelor party or family occasion into a unique experience. This is possible at Sailcenter Limburg! Welcome with coffee and flan, breakfast or lunch and at the end a delicious BBQ, makes your trip complete. We have a wide range of possibilities, suitable for both large and small groups. Please contact us about your wishes, so we can make a suitable program, every group trip is tailor-made. We work with groups from a minimum of 4 people up to a maximum of 80 people, divided into smaller groups that, if desired, switch between the various activities within the time available.

Combine the useful with the pleasant, a team meeting prior to the activity is among the possibilities. If you want space and privacy for this, choose a Wednesday or Thursday excluding vacations and public holidays. Our pavilion is suitable for meetings with 12-20 people. For an impression of the atmosphere, visit sailcenterlimburg.com.

Below are some of our most successful programs:

Wind in the sails, sailing with skipper

For anyone who wants a day of relaxation through exertion. The wind takes away your stress and lets you experience serene peace and space. There are several options, we are happy to help you choose.

Version 1: Sailing with an experienced skipper in Valken. You sail in the boat with a skipper who has the final responsibility.

Version 2: You are not afraid of falling into the water and getting wet? You sail independently with 2 people in a Laser Pico and / or Laser Vago the instructor gives instructions from the motorboat.

Drinks on the water, sailing with skipper in a luxury sloop

Quietly enjoying yourself in luxury and opulence? Then sailing with a sloop is something for you! Our luxurious sloops are suitable for up to 8 people per boat (depending on the boat type) and are sailed by our skippers. This way you can enjoy the beautiful surroundings, the tranquility on the water and the conversation with each other while enjoying (your own or our provided) snacks and drinks.

Full Moon Cruise

Sailing away or returning with the setting sun is a unique experience. The full moon atmosphere makes it extra attractive to let go of old habits. The peace and space on the water give you every opportunity to do so. For a moment you are completely of the grid. Together we sail on the Maasplassen, if desired to Stevensweert or Kessenich, and during the rising full moon we sail back to the sailing school. This activity can be booked with and without skipper. Dates: April 24, May 23, June 22, July 21, August 19, September 18, October 17, 2024.

Experience cruise

Have you sailed on the river Maas but haven't dared to go through the lock? Are you afraid of the big boats? Then join us on our experience trip which includes lock sailing. We start the day with information and then go out on the water to put our money where our mouth is. Sailing on the Maas can be done with a skipper on board or you can do this trip independently. On the way, we will have lunch together at a nice place by the water. The price is based on sailing in a sailboat, if you want to participate in a sloop please ask for the possibilities.

Dates: May 20, June 9, September 1, October 5, 2024.

All together enjoy the various forms of water sports. There are various ways to enjoy the water. We have pedal boats, canoes and a supersup. If this is not a spectacle! We will gladly make a choice for the right materials based on the group composition together with you. This arrangement can be done completely independently. This activity includes the use of a Secu motorboat for safety and picture taking.

Muscle power versus wind power, who is the fastest

It may seem like a done deal, but Mother Nature always has surprises in store for you. The strength and direction of the wind can be to your advantage or disadvantage. During this competition, muscle power is used in canoeing or bike, against wind power in sailing. Who will arrive first? Halfway through the trip we will switch so you can experience both activities. Canoeing is done independently in 2 or 3 or 8 person Canoes, sailing is with a skipper from us in the boat type Valk.

Version 1: Sailing versus Canoeing

Version 2: Sailing versus Biking

Muscle power versus walking power, experiencing the tranquility of nature.
